The Child Care Advantage Assessment

Everything you need to make an informed decision about your child care benefit solution.

What the Assessment covers

Does your child care market offer affordable, accessible, quality options? We conduct a market analysis of what's available – or not – for your workforce We study the landscape of providers: available capacity, wait lists, hours of operation, tuition, and state subsidy acceptance.

What child care solutions does your organization need, if any? We study your workforce: where employees live, when they work, affordability constraints, emerging trends in your hiring, and what child care solution they need now and down the road.

Which of the six approaches fit your company? We provide an analysis of all six approaches from our landmark *The Child Care Advantage* report – screened against your child care market, feasability for your workforce, and your budget.

What will it cost and what will it return? We deliver a cost and return on investment analysis built on your unique hiring and turnover metrics and the state and federal tools that may reduce your cost.

Who you work with

The Assessment is led by Cay Hayes, who has spent nearly thirty years in senior roles in the corporate child care industry designing and implementing care solutions alongside employers.

Tennessee Business + Family Forum is an initiative of Tennesseans for Quality Early Education (TQEE) – a TN nonprofit 501c3 organization. We bring expertise and knowledge about the child care marketplace while remaining vendor neutral. And **the Assessment is provided at no cost to you.**
